Bluworld Quality Through and Through in Workmanship and Materials

Designed and engineered by the world leader in exquisite custom Waterfall design, Bluworld's Gardenfall line is made with the same passion for design and quality as our custom products. For over 10 years the Gardenfall floor fountain has been our most popular and sought after fountain, made with the highest quality materials and workmanship it's easy to see why. With the addition of our low voltage LED Color Light Display System you can create your own light show in your home or office. Select from several solid color choices or chose one of the 16 preprogrammed light display combinations or make your own, all at the touch of a button or the slide of a finger on the included remote control.

KEY FEATURES

- ✓ Suitable for indoor or outdoor use.
- ✓ Certified Simple 5 step Setup will have you enjoying your fountain in no time. Few pieces with no tools needed makes assembly easy.
- ✓ Made with heavy gauge stainless steel or aluminum construction our technicians weld and hand polish every seam. Every unit is inspected and water tested prior to packing. Our quality is unmatched by other manufacturers making similar products sold on the market today.
- ✓ The pump includes a first stage filter and a secondary micron filter that insures the removal of heavy particles. The flow valve easily lets you adjust the water pressure up or down. This entire assembly connects in seconds with our "quick Connect" fitting.
- ✓ 1 Year warranty against manufacturer defects on your Gardenfall fountain and the LED lighting system. Pumps carry a 6 month warranty.
- ✓ Our proprietary water distribution system insures even, full surface coverage.
- ✓ The removable heavy duty rock tray(s) lift right out for easy instant access to the water supply, pump, micron filer, and flow valve for service when needed.
- ✓ Your Gardenfall also ships with polished river rocks and easy to follow 5 step instruction manual.
