SAFETY

COMFORT

The Adjust-a-Sink® by Accessible Systems is an ADJUSTABLE HEIGHT SHAMPOO BOWL that truly works! It can easily be adjusted vertically a full 12" so that both the resident and the stylist experience a dignified and comfortable shampoo.

EASY-TO-USE FOOT PUMP

EASY-TO-INSTALL

WORKS WITH SALON CHAIR
OR A WHEELCHAIR

HIGH QUALITY BOWLS

Adjust-a-Sink®

FOR SAFETY and COMFORT: The Adjust-a-Sink® works with a standard salon chair. It also accommodates a variety of wheelchairs, which allows the client to remain in their wheelchair while they have their hair shampooed.

FOR THE RESIDENT:

Due to its patented, adjustable features, the Adjust-a-Sink® provides a SAFE and COMFORTABLE way to shampoo the resident's hair during their important visit to the salon. The Adjust-a-Sink®:

- Works with Most Wheelchairs - Eliminating the Need to Transfer the Resident from the Wheelchair to a Salon Chair
- Adjusts a Full 12" - Allowing for an Improved and Safer Fit Between the Shampoo Bowl and the Resident's Neck (Bowl Height Adjusts from 34" - 46" from the Floor)

FOR THE SENIOR CARE FACILITY:

The Adjust-a-Sink® ensures your facility differentiates its services by providing the ultimate in adjustable height salon comfort during the resident's important visit to your facility's salon.

The Adjust-a-Sink® provides solutions to:

- Possible Accidents Caused by Wet Floors or When Moving a Resident from the Wheelchair to the Salon Chair
- Having to Apologize for the Resident Having Wet Clothes During Their Service

FOR THE STYLIST:

The Adjust-a-Sink® allows the stylist to have control over the sink by being able to easily raise and lower the shampoo bowl to the perfect height between the resident and the bowl. This enables the stylist to stand upright - not bending and stretching excessively during the shampoo and rinse. The Adjust-a-Sink® helps to eliminate Lower Back Pain and Shoulder Strain.
