BEL MASTER
MULTI-FUNCTION
HAIR COLOR PROCESSOR

Bel Master Multi-Function Hair Color Processor

The Bel Master is a state of the art, ergonomically-designed, multi-function hair processor that is gentle on the hair and easy to use. This compact do-it-all machine is easily maneuverable and takes a minimal amount of space. All this and beautiful color besides! The Bel Master is one investment that you can't afford to be without.

Save Time!

The Bel Master reduces the processing time of perms, coloring and conditioning by 45-70%, using an ionized steam heat source which actually opens up the hair follicle allowing quicker penetration.

Increase Customer Satisfaction!

The Bel Master provides longer lasting color, resisting fading.

Increase Productivity!

Average times saved for processes is about 15 to 30 minutes; extra time for your colorist to take a needed break or to start on another client.

Increase Profits!

Faster service, happier customers, and contented colorists; all this and a turnover rate that will mean higher profits for you.
Bel Master works for you!

Easy – We make the Bel Master easy to use by pre-setting the times and temperatures of the various modes at the minimum suggested, your colorist simply adds extra time and temperature manually.

Versatile – Coloring, bleaching, perming, conditioning, highlighting and streaking all in one machine

Convenient – No running around for different functions, just change the mode at the touch of a button.

Control Panel

Water Container
