**To finish assembly:**

- 1) Set the seat/box assembly on top of the base cabinet. Line up the (4) corresponding pre-drilled holes.**
- 2) Pass the threaded studs through the holes in the base cabinet. Secure to the base cabinet with provided washers and nuts. You must remove the drawers to access the studs for attachment. Use the procedure in the illustration to remove/reinstall the drawers.**

**To Remove Drawer**

Pull the drawer fully open so levers are visible.  
 Push "down" on the right lever (shown), and "up" on the left lever.  
 Holding levers in place, pull drawer toward you.

**To Reinsert Drawer**

Bring ball retainer fully forward and carefully reinsert drawer member slide into the cabinet member slide, guiding the drawer member raceway between the ball bearings.  
 Completely close drawer.  
 Open and close drawer to ensure the slide is fully engaged into the ball bearing track.
