

BRVURA

INFRARED COLOR PROCESSOR

FASTER TREATMENT PROCESSING, MAXIMIZE COLOR PENETRATION, INCREASE COLOR CONSISTENCY & PREDICTABILITY, & INCREASE SHINE & BRILLIANCE.

Designed for perming, conditioning, and color-product acceleration, the *Bravura Infrared Color Processor* features five independent treatment zone that enables stylists to selectively focus on an treatment area or evenly distribute infrared heat to the entire head. Easy to operation, Bravura's control panel is straight-forward and minimizes the learning curve. Targeting the precise amount of time and heat setting to the client's hair condition enable the salon to save energy and money.
