# NAGI

Takara Belmont 's Nagi (means 'no wave' in Japanese) styling chair has been designed with exceptional comfort in mind. By employing advanced ergonomic principles to the design process the Nagi allows the client to sit with minimal pressure on the lower body and lumbar region; this is due to the placement and type of specialized foams in the seat cushion and back. By allowing the body to rest in a truly ergonomic position, and the adjustability of a hydraulic base, both the stylist and the customer can be equally comfortable.
