

# HOODIE

Downward-Draft Dryer

## Features

Garfield's Hoodie Downward-Draft Dryer was designed for modern styling, drying shampoo-&-set styles, pre-drying, and heat-application hair treatments. The oversized, translucent hood gives the sensation of being in an open environment during treatment and accommodates variable treatment styles, larger curlers, and hair sizes. The dual-hood design distributes air uniformly in a downward direction protect the clients hair from the fan and minimizing the need for the use of hair nets. Variable settings for time, temperature, and height enables individual, customized treatments. The Hoodie is available in everyday-versatile Rollercaster (DL05) and space-saving Wall-Mount (DL05WM) setups.
